Plastatech® Engineering, Ltd. Sales Representative Selected as Treasurer of International Geomembrane Consortium

SAGINAW, MICHIGAN — Jordan Wiechmann, from Saginaw-based Plastatech Engineering, has been elected to serve a two-year term as Treasurer of the international industry and academic consortium Fabricated Geomembrane Institute (FGI). Jordan's seat and other elected positions were selected at the FGI annual membership meeting in Houston, Texas on February 12th.

"I am both humbled and honored to be given the opportunity to work and grow with such a knowledgeable group of leaders," said Jordan. "As we continue our mission of educating the industry on the benefits of utilizing fabricated geomembranes, I am ecstatic to contribute my passion and dedication to the Board."

FGI is a nonprofit organization located at the University of Illinois at Urbana-Champaign comprised of 54 industry and academic organizations. They are dedicated to advancing the use of fabricated geomembranes through education, research, and technology transfer.

About Plastatech® Engineering, Ltd.

Plastatech produces calendered and extruded PVC films, weft-inserted textiles, single-ply PVC roofing membrane, reinforced and non-reinforced geomembranes, and laminated vinyl fabrics that are used for tension structures, temporary shelters, agricultural storage, pond liners, and other applications. Plastatech is headquartered in Saginaw, Michigan. For more information on Plastatech, call 800-892- 9358 or visit www.plastatech.com.
